

# Simplify your company's expenses with Rydoo Cards

and get real-time visibility on your business spend

Rydoo offers virtual and physical cards for one-time, recurring and ongoing card spend. All integrated within the top-rated expense management platform. Rydoo Cards adapts to the unique needs of your business so you can empower your team and still ensure that budgets and policies are respected. It's the perfect balance between employee empowerment and financial control.

## Unparalleled control

Maintain control over employee expenses like never before by setting custom workflows and pre-defined limits for each virtual or physical card. Decide who gets to use a virtual or physical card. Add a layer of approval **before** your teams spend a cent by setting pre-defined limits and a custom workflows. Going over budget? No problem, finance can change the limits or block a card.

## Real-time visibility

Native Rydoo Cards puts you ahead of the game with access to real-time transaction data. Employee expenses are **created automatically** as the payment happens, giving you instant visibility over all their spending. The Finance team can view all cards requests, transactions, expenses, and the company's balance at all times.

## Empower your team

Teams love Rydoo Cards! They can finally focus on what truly matters – **growing your business** – without worrying about out-of-pocket expenses, filling complex reports, or waiting for reimbursements.

# How real-time expensing works

With Rydoo Cards, every expense can be processed instantly. Employees love the simplicity and Finance teams stay in control.

## Get your Card

Employees receive a physical card or request virtual cards in the app for ad-hoc or recurring use. Managers review the request and approve it.

## Make a purchase

Every time a card is used, Rydoo receives the transaction information and creates a matching expense in real-time.

## Add a receipt

The employee takes a photo of the receipt, adds it to the expense in the Rydoo app, and submits.

## Why should I choose Rydoo cards over a regular banking card service?

Unlike traditional bank card solutions, Rydoo allows to:

- Set spending controls and approvals before purchases happen.
- Create virtual cards in a flexible and convenient way.
- View expenses in real-time across the company.
- Get automatic reminders to attach receipts and submit expenses.

## What card types are available?

Rydoo offers virtual and physical cards. There are two types of virtual cards available:

- Single-use: to make a one-time payment, e.g. Conference ticket;
- Multiple-use: suitable for various online payments, e.g. Monthly software subscription;

## Is Rydoo acting as a bank?

No, Rydoo is not a bank. We've partnered with [Stripe](#) and [Visa](#) to issue the cards. As for the funds that you deposit, they're held by [Banking Circle](#) (Germany). Rydoo does not receive, hold, transfer or come into possession of your funds at any time.

## Can I become a Rydoo cards customer?

If your company is located within the Eurozone or in the UK, yes! You can create a wallet and deposit your funds in Euro (€) or British Pound (£), after going through a KYC/KYB verification process.

## Are Rydoo cards accepted everywhere?

Rydoo offers VISA Corporate cards issued by Stripe that are accepted by millions of businesses. We support 3D secure authentication for online payments which increase the acceptance rate.
